

PRACTICAL TRAINING REQUIREMENTS:

CLINICAL COURSE

	VII semester		VIII semester		IX semester		X semester	
	c.	p.	c.	p.	c.	p.	c.	p.
Treatment of caries	6	10	8	12	10	20	10	20
Root canal treatment	3	12	3	15	5	27	4	24
Cast restorations - inlay	-	-	1	4	1	4	1	4
Cast restorations - pinlay	-	-	-	-	1	5	1	5
Post and core build ups	1	3	1	3	1	3	2	6

Until the end of the fourth course one of the three types of builds:

1. Self threading pins
2. Post and core build up
3. Pinlay

General mandatory requirements for the entire clinical course:

1. 2 PDL injections
2. Placement of 2 self threading pins least
3. 1 metal inlay at least
4. 8 root canals finished with lateral condensation at least
5. 3 restorations with post and plastic material at least

Performance requirements defined in points according to the following principles:

1. Treatment of caries	1 surface	1 point
	2 surfaces	2 points
	3 surfaces	3 points
2. Endodontic treatment	1 canal	3 points
3. Metal cast inlay	1 surface	2 points
	2 surfaces	4 points
	3 surfaces	6 points
4. Metal post and core (pinlay)		5 points
5. Post and core build up with plastic material		3 points

NOTE: Do not add items to self-threading pins, removing an old root canal sealer, removing an old restoration and others. Possible substitution to 25% between the treatment of caries and endodontic treatment or recovery pin with plastic material.
