

Lecture Program Clinic of Pediatric Dentistry - Phantom Course
IV year, VII semester (winter semester) 2026-2027

Workload:

15 h lectures

6 lectures of 2 hours

1 lecture of 3 hours

Prof. N. Grancharova, DM

Monday 11.30 – 13.00 h, 1st w – 5th hall

1st lecture – 2 hours **14.09.2026**

Complications of caries in the primary dentition.

2nd lecture – 2 hours **28.09.2026**

Injuries in both dentitions – Part I

3rd lecture – 3 hours **12.10.2026**

Injuries in both dentitions – Part II

4th lecture – 2 hours **26.10.2026**

Complications of caries in permanent dentition – Part I.

5th lecture – 2 hours **09.11.2026**

Treatment Methods of Permanent Teeth with Incomplete Root Development – Part I

6th lecture – 2 hours **23.11.2026**

Treatment Methods of Permanent Children's Teeth with Incomplete Root Development – Part II

7th lecture – 2 hours **07.12.2026**

Apical periodontitis of immature permanent teeth.

**Exercise Program Pediatric Dentistry -
phantom course
IV year, VII semester (winter semester) 2026-2027**

Exercise 1 – 2 hours

14.09 - 18.09.2026

Complication of caries in the primary dentition Part I – theoretical part, demonstration and practical work.

Exercise 2 – 2 hours

21.09 - 25.09.2026

Complication of Caries in primary Dentition Part II – Theoretical Part, Demonstration and Practical Work.

Exercise 3 – 2 hours.

28.09 - 02.10.2026

Non-operative and microinvasive treatment of carious lesions in the permanent dentition – theoretical part, demonstration and practical work

Exercise 4 – 2 hours

05.10 - 09.10.2026

Operative minimally invasive treatment of carious lesions in the permanent dentition – theoretical part, demonstration and practical work.

Exercise 5 – 2 hours

12.10 - 16.10.2026

Matrix systems used in restorations of both dentitions - theoretical part, demonstration and practical work.

Exercise 6 – 2 hours

19.10 – 23.10.2026

Traumatic injuries in primary dentition - theoretical part, demonstration and practical work.

Exercise 7 – 2 hours

26.10 - 30.10.2026

Traumatic injuries in the permanent dentition - theoretical part, demonstration and practical work.

Exercise 8– 2 hours

02.11 - 06.11.2026

Traumatic injuries in the permanent dentition - theoretical part, demonstration and practical work.

Exercise 9 – 2 hours

09.11 - 13.11.2026

Theoretical part

Indirect restoration of severely destroyed permanent molars - theoretical part, demonstration and practical work.

Exercise 10 – 2 hour

16.11 - 20.11. 2026

Pulpitis in immature permanent teeth – theoretical part, demonstration and practical work – first part.

Exercise 11 – 2 hours

23.10 - 27.11.2026

Pulpitis in immature permanent teeth – Theoretical Part, Demonstration and Practical Work on Extracted Teeth – Part Two.

Exercise 12 – 2 hours

30.11 – 04.12.2026

Pulpitis in immature permanent teeth – theoretical part, demonstration and practical work on extracted teeth – third part.

Exercise 13 – 2 hours

07.12 - 11.12.2026

Apical Periodontitis of immature permanent teeth – theoretical part, demonstration and practical work.

Exercise 14 – 2 hours

14.12 - 18.12.2026

Practical exam

Exercise 15 – 2 hours

23.12 - 25.12.2026

Completing the tasks from the previous classes
