

**FACULTY OF DENTAL MEDICINE
CENTRE OF DENTAL IMPLANTOLOGY**

**LECTURE PROGRAMME – DENTAL IMPLANTOLOGY
5TH YEAR, IX SEMESTER /WINTER/, 2026-2027 year**

TUESDAY – 09.45- 11.15, 2nd week, Auditorium № 5

Date	Lecturer	Lecture subjects
22.09.2026 г.	Prof. Dr. D. Filtchev, PhD	I. Optimum implant positioning - prosthetically driven three-dimensional approach. Immediate implant placement and immediate prosthetic restoration in the aesthetic zone. Importance of provisional crowns for designing of emergence profile.
06.10.2026г.	Prof. Dr. D. Filtchev, PhD	II. Immediate prosthetic treatment in dental implantology. Determining the indications for immediate, early, and delayed loading. Indications and contraindications for immediate loading.
20.10.2025 г.	Prof. Dr. T. Uzunov, PhD	III. Implant prosthetic treatment in partial edentulism. Classification. Single-tooth implant restorations. Clinical approaches for prosthetic treatment.
03.11.2026 г.	Prof. Dr. D. Filtchev, PhD	IV. Clinical approaches for implant rehabilitation in complete edentulism. Fixed and removable prostheses. Types of retainers. "All on four" concept.

17.11.2026 г.	Prof. Dr. E. Deliverska, PhD	V. Principles of bone augmentation. Tissue-restorative materials. Guided bone regeneration - GBR. Barrier membranes. Expansion, condensation and split-osteotomy of alveolar bone. Osteodensification. Other methods of augmentation.
01.12.2026 г.	Prof. Dr. E. Deliverska, PhD	VI. Success criteria of implant treatment. Intraoperative and early postoperative complications - prevention, diagnosis and treatment.
15.12.2026 г.	Assoc. Prof. Dr. K. Kotsilkov, PhD	VII. Peri-implant health – definition, clinical parameters. Basic factors for long-term stability of peri-implant soft tissues.
29.12.2025 г.	Assoc. Prof. Dr. K. Kotsilkov, PhD	VIII. Biologic, aesthetic and mechanical/technical complications in dental implantology. Diagnosis and treatment.

Head of Dental Implantology Centre:

Prof. Dr. D. Filtchev, PhD, DMD
