

**THEME SCHEDULE FOR PRECLINICAL LECTURES IN DENTAL,
ORAL AND MAXILLOFACIAL SURGERY - III COURSE
WINTER SEMESTER 2026/2027**

Date	THEME	LECTURER
16.09.2026	Head and neck topographical anatomy. Range of OMFS	Svechtarov V
23.09.2026	Tooth extraction –indications and contraindications Teeth eruption disorders. Etiology, pathogenesis, clinical features, assessment, differential diagnosis and treatment. Complications.	Deliverska E
30.09.2026	Innervation and local anaesthetics.	Deliverska E
07.10.2026	Inflammatory diseases in OMFR.	Mihaylova Z
14.10.2026	Local anaesthesia in OMFR	Deliverska E
21.10.2026	Instruments and materials used in oral surgery	Svechtarov V
28.10.2026	Study diseases in oral and maxillofacial surgery	Mihaylova Z
04.11.2026	Principles of surgery – asepsis and antisepsis	Svechtarov V
11.11.2026	Periapical periodontitis	Svechtarov V
18.11.2026	Healing of the extraction wound. Complications during and after teeth extraction	Deliverska E
25.11.2026	Anaesthesia in childhood age; anaesthesia in case of acute odontogenic infections. Extraoral methods for anaesthesia. Basal cranium surface local anaesthesia	Mihaylova Z
02.12.2026	Cysts in OMFR	Deliverska E
09.12.2026	Complications in local anaesthesia	Deliverska E
16.12.2026	Management of patients with concomitant diseases in oral surgery	Mihaylova Z
23.12.2026	Emergency in Dental practice	Mihaylova Z

WEDNESDAY , 9.45 – 11.15 h, II DENT. HALL

HEAD OF DEPT. DENTAL,
ORAL AND MAXILLOFACIAL SURGERY
/PROF. P. STANIMIROV, MD, DDS, PHD/

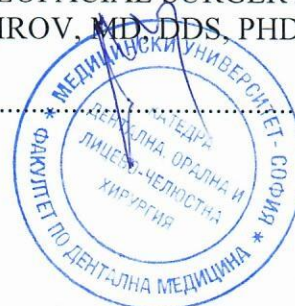

**THEME SCHEDULE FOR CLINICAL LECTURES IN DENTAL, ORAL AND
MAXILLOFACIAL SURGERY - IV COURSE – WINTER SEMESTER 2026/2027**

Date	THEME
16.09.2026	Teeth retention. Indications and contraindications for removal of impacted teeth. Classification systems. Competencies. Principles of surgical procedure. Complications. Teeth eruption disturbances (dentitio difficilis). – Prof. Deliverska
23.09. 2026	Complicated teeth extraction. Indications, principles and techniques of open methods of extraction. Transalveolar extraction techniques for single-rooted and multi-rooted teeth. Removal of root fragments and root tips. Complications. Competencies. Consequences and strategies to deal with bone-abandoned roots, root fragments and apices. Competencies. Multiple extraction. assoc. prof. Svechtarov
30.09.2026	Teeth extraction in patients with concomitant diseases, allergy and pregnancy. Tooth extraction in patients with medication: antiplatelet agents; anticoagulants; antiresorptive agents; biological treatment; immunosuppressive drugs, etc. – assoc. prof. Mihaylova
07.10.2026	Soft tissues cysts of OMFR and the neck. Clinic, diagnostics, diff. diagnosis and treatment. Assoc. V. Svechtarov
14.10.2026	Acute periodontitis, chronic periodontitis, periapical abscess: clinic, diagnosis, diff. diagnosis and treatment, complications, competencies. Radicular (periapical) cyst: types of radicular cysts, clinic, diagnosis, diff. diagnosis and treatment, competencies.-assoc. prof. Svechtarov
21.10.2026	Clinic, diagnostics, diff. diagnosis and treatment of sinusitis of odontogenic origin. Maxillary sinus perforation and oro-antral communication. – Professor Deliverska
28.10.2026	Clinic, diagnostics, diff. diagnosis and treatment of inflammatory diseases of the jaw bones: acute odontogenic osteomyelitis; hematogenous osteomyelitis; traumatic osteomyelitis; periostitis of the jaws. – Professor Deliverska
04.11.2026	Cysts of the jaw bones- clinic, diagnosis and differential diagnosis. Principles of treatment. – Prof. Deliverska
11.11.2026	Principles of medication of inflammatory diseases in OMFR assoc. prof. Mihaylova
18.11.2026	Clinic, diagnostics, diff. diagnosis and treatment of abscesses and phlegmons in OMFR according to the topographical anatomy assoc. prof. Mihaylova

25.11.2026	Clinic, diagnostics and diff. diagnosis and treatment of lymphadenitis in head and neck region. Clinic, diagnostics, diff. diagnosis and treatment of specific diseases in OMFR Prof. Deliverska
02.12.2026	Complications of odontogenic infection: sepsis, mediastinitis, thrombophlebitis of cavernous sinus. Diagnosis, differential diagnosis, treatment. assoc. prof Mihaylova
09.12.2026	Diseases of the salivary glands. Clinic, diagnostics, diff. diagnosis and treatment of: sialoadenitis, sialodochitis and sialolithiasis. Sialoadenosis. Sjogren's disease and syndrome. Mikulic's disease. Heerfordt syndrome.assoc. prof Mihaylova
16.12.2026	Principles of treatment and prevention of odontogenic infection Prof. Deliverska
23.12.2026	Clinic, diagnostics, diff. diagnosis and treatment of diseases of temporomandibular joint. – Assoc. V. Svechtarov

WEDNESDAY , 9.45 – 11.15 h, V DENT. HALL

HEAD OF DEPT. DENTAL,
ORAL AND MAXILLOFACIAL SURGERY
/PROF. P. STANIMIROV, MD, DDS, PHD/

**THEME SCHEDULE FOR CLINICAL LECTURES IN DENTAL, ORAL AND
MAXILLOFACIAL SURGERY - V COURSE – WINTER SEMESTER 2026/2027**

Date	LECTURE	LECTURER
18.09.2026	Premalignant lesions of the oral mucosa. Leukoplakia. Erythroplakia. Dysplasia of the oral epithelium. Clinical appearance, diff. diagnosis, diagnostics, management.	Prof Deliverska
25.09.2026	Squamous cell carcinoma of the oral cavity with the following locations: carcinoma of the tongue, carcinoma of the buccal mucosa, gingival carcinoma, carcinoma of the mouth floor, carcinoma of the hard palate, carcinoma of the lips. Clinical appearance, diff. diagnosis, diagnostics, management.	Prof Deliverska
02.10.2026	Malignant lesions of the oral cavity: general characteristics. Squamous cell carcinoma of the oral cavity: general characteristics, epidemiology, etiology, classification, staging.	Prof. Deliverska
09.10.2026	Malignant melanoma of the skin and oral mucosa. Clinical appearance, diagnosis, diff. diagnosis, management.	Assoc. Prof. Svechtarov
16.10.2026	Benign tumors of oral cavity- clinical features, diagnosis, differential diagnosis and management	Prof Deliverska
23.10.2026	Malignant tumors of the skin. Basal cell carcinoma. Squamous cell carcinoma. Clinical appearance, diagnosis, diff. diagnosis, management.	Assoc. Prof. Svechtarov
30.10.2026	Benign non-odontogenic lesions and tumors of the jaws. Fibro-osseous lesions: fibrous dysplasia, cement-osseous dysplasia, ossifying fibroma.	Assoc. Prof. Svechtarov
06.11.2026	Benign non-odontogenic lesions and tumors of the jaws. Central giant cell granuloma. Giant cell tumor. Lesions in hyperparathyroidism. Cherubism. Aneurysmal bone cyst.	Assoc. Prof. Mihaylova Z
13.11.2026	Tobacco induced oral keratosis. Oral sub-mucous fibrosis. Nicotine stomatitis. Actinic keratosis. Actinic cheilitis.	Assoc. Prof. Mihaylova Z
20.11.2026	Odontogenic tumours: clinical appearance, diagnosis, diff. diagnosis, management.	Prof. Deliverska
27.11.2026	Malignant tumors of the jaws. Jaw bone and soft tissue sarcomas. General characteristics. Clinical appearance, diagnosis, diff. diagnosis, management.	Assoc. Prof. Mihaylova Z
04.12.2026	Benign non-odontogenic lesions and tumors of the jaws. Osteoma. Chondroma. Blood vessels malformations in the jaws. Langerhans histiocytosis.	Assoc. Prof. Svechtarov
11.12.2026	Benign and malignant tumors of the major and minor salivary glands. Clinical appearance, diagnostics, diff. diagnosis, management.	Prof Deliverska
18.12.2026	Lymphomas of the oral cavity and maxillofacial region. Hodgkin's and non-Hodgkin's lymphoma. Extranodal non-Hodgkin's lymphomas.	Prof Deliverska

FRIDAY, 9.45 – 11.15 h, V DENT. HALL

HEAD OF DEPT. DENTAL,
ORAL AND MAXILLOFACIAL SURGERY
/PROF. P. STANIMIROV DM, DDS, PHD/
